

R70

Zero Air Generator

- Portable battery operation
- Zero air source
- Easy operation
- Rapid T90 output
- Docking ability for added functionality
- Consistent and reliable zero air output

The Zero Air Generator is designed by Aeroqual to produce a clean air source, allowing accurate and correct use of the 'Re-Zero' function offered by many Aeroqual monitors.

Specifications

Power supply:	12V DC (power adaptor/charger supplied 100-250V AC)
Rechargeable battery:	Ni-MH 9.6V DC 2100mA/h
Fan:	On board ball-bearing 50,000 hours
Accuracy:	Approximately 10%
Enclosure size:	170 x 110 x 80 mm (L x W x H)
Weight:	1600 grams
Approvals:
