

DAB Pump KVE 50

MULTISTAGE CENTRIFUGAL PUMPS WITH VERTICAL AXIS WITH INVERTER MCE/P

PRESSURIZATION

Vertical multistage centrifugal pump suitable for medium and high consumption water systems. Particularly versatile thanks to the use of the **MCE/P** inverter, this pump guarantees the automatic adjustment of its performance to the various system requirements, while maintaining constant the differential pressure. Corrosion treated cast iron discharge and suction bodies, motor support and diffuser bodies. Bronze impeller and diffuser in cast iron. Shaft and relative sliding bush in AISI 416 stainless steel. Bronze sliding bush guide, self-lubricated. Mechanical seal in carbon/tungsten carbide. Motor shaft - pump shaft connection with rigid coupling. Two-pole, asynchronous motor closed and cooled by external ventilation. Threaded counter flanges supplied as standard.

Protection rating: IP 55.

Insulation class: F.

Standard voltage:

three-phase 3x400 V / 50 Hz

Operating range:

from 12 to 45 m³/h, with head up to 240 m (2 poles).

Liquid temperature range: from -15°C to 110°C.

Pumped liquid: clean, free from solids or abrasive substances, not viscous, not aggressive, not crystallized and chemically neutral.

Maximum ambient temperature: + 40°C.

Maximum working pressure: 30 bar (3000 kPa).

Installation: fixed, in a vertical position.
